

# **Interaksi Antar Dua Komunitas Agama (Islam-Kristen)**

## **Pasca Konflik di Desa Latta Kota Ambon**

### **Oleh : Alce Albartin Sapulette**

#### **Abstrak**

*Latta Village is one of the villages besides Wayame Village which did not experience the impact of the Maluku conflict in 1999, even though the people were multi-religious (Islam and Christian). The people of Latta Village remain united and maintain the common life order between Islam and Christianity that has been fostered from the beginning. Relationships or social relations remain well intertwined with one another. Research has been conducted on the interaction between two religious communities (Islam-Christians) post-conflict in Latta Village, Ambon City. This study aims to describe the social interactions that occur in the community using a qualitative approach. Based on the results of the study, it was found that there was an interaction relationship that remained intertwined in the lives of the people of Latta Village before and after the conflict. The relationship occurred because of good contact and communication between the Islamic community and the Christian community, and also because of the intervention of the Village Head, Imams, Priests and the community as a whole. Therefore, it can be concluded that the interaction relationships must remain maintained in order to create a life of a peaceful and harmonious society.*

**Keywords:** *social interaction, religious community, conflict*

#### **A. Pendahuluan**

**M**endiami sebuah wilayah atau lingkungan dalam jangka waktu yang cukup panjang membuat seseorang berperilaku dan bertindak sesuai dengan kondisi lingkungan sosial dimana orang itu berada. Lingkungan sosial yang didiami dalam jangka waktu cukup lama akan menimbulkan sebuah proses interaksi yang mengarah kepada proses pember-tukkan karakter seseorang. Ini berarti bahwa lingkungan merupakan wadah atau tempat seseorang membentuk karakter, termasuk didalamnya

karakter yang berhubungan dengan emosi ke-agamaan. Hal ini sama dengan apa yang disampaikan oleh Ross dan Gloria Kinsler tentang Analogi Gelas sampanye. Hal ini dimaksudkan bahwa dengan melihat gelas sampanye maka, seseorang diajak untuk menyadari posisi orang lain dalam realita kehidupan sosialnya.<sup>1</sup>

Untuk mengetahui karakter seseorang maka seseorang harus menjadi tujuan utama dari perasaan-perasaan serta hasratnya yang nyata
